For the Essential Plus Option members only

There are three reasons why you would need to pay claims from your own pocket.

Some claims contribute to increasing your Self-Payment Gap, as they do not accumulate to your Annual Threshold. A Self-Payment Gap happens when you run out of money in your Medical Savings Account before reaching the Annual Threshold.

The scenarios below indicate why you will need to pay claims from your own pocket before the Scheme starts paying again from the Above Threshold Benefit.

You will also need to pay claims from your own pocket once you have exceeded the benefit-specific annual limits for certain types of claims, which are funded from the Above Threshold Benefit:

You exceed your annual limits, for example dentistry and optical limits

To find out whether you're likely to pay costs from your own pocket, check:

Remember to continue submitting your claims to the Scheme when you are in the Self-Payment Gap, so that they can add up to your Annual Threshold.
